**Theme of Project: *Vanishing Glory of Indian Art and Technique***

### Introduction

India has a rich heritage of art, architecture, handicrafts, and traditional techniques. Ancient Indians were skilled in painting, weaving, metalwork, pottery, sculpture, and scientific inventions. However, with modernization and industrialization, many traditional arts and techniques are slowly disappearing. Computers and digital technology can help preserve and promote these valuable traditions.

### Vanishing Glory of Indian Art and Technique

#### 1. Indian Traditional Arts

Some famous Indian traditional arts are:

- Madhubani Painting (Bihar)

- Warli Art (Maharashtra)
- Pattachitra Painting (Odisha)
- Kalamkari Art (Andhra Pradesh)
- Tanjore Painting (Tamil Nadu)
- Handloom Weaving
- Pottery and Terracotta
- Classical Music and Dance

These arts reflect Indian culture, traditions, and creativity.

## **2. Reasons for Their Decline**

The traditional arts and techniques are vanishing because of:

1. Modern machines replacing handmade products
2. Lack of interest among younger generations
3. Low income for artisans
4. Foreign products dominating markets
5. Limited awareness and promotion

As a result, many artists are leaving their traditional professions.

## **3. Role of Computers in Preserving Indian Art**

Computers and technology can help save Indian art in many ways:

### **a) Digital Preservation**

Ancient paintings, manuscripts, and designs can be stored digitally using scanners and computers.

### **b) Online Promotion**

Artists can sell their products through websites and social media.

### **c) Graphic Designing**

Traditional art can be recreated using computer software like:

- Adobe Photoshop
- CorelDRAW
- Canva

### **d) Animation and Gaming**

Indian folk stories and art styles can be used in animation and video games.

### **e) Virtual Museums**

Museums can create virtual tours so people around the world can explore Indian culture online.

#### 4. Importance of Saving Indian Art

- Protects Indian culture and heritage
- Provides employment to artisans
- Increases tourism
- Teaches future generations about traditions
- Makes India culturally strong and unique

#### 5. Conclusion

Indian art and traditional techniques are treasures of our country. Although many are disappearing today, computers and digital technology can play a major role in preserving them. Students and young people should respect and support traditional Indian arts so that they continue to shine in the future.
